

Brief CV

Name	Yang LI	Gender	Female	Photo
Title (Pro./Dr.)	A/ Prof. Dr.	Country	China	
Phone Number		University Email		
University/Department	Dalian University of Technology/Energy Chemical Engineering			
Personal Web Sites	http://faculty.dlut.edu.cn/yli/zh_CN/index.htm			
Research Area	Pollution control in energy conversion			
<p>Brief introduction of your research experience:</p> <p>Dr. Li is an associate professor in the School of Chemical Engineering at Dalian University of Technology, China. She received his Bachelor degree and PhD. degree in thermal engineering from Huazhong University of Science and Technology in 2004 and 2011. She spent two years at University of Utah Secure & Clean Energy Institute, U.S.A, as a research assistant and visiting scholar. She then became an assistant professor and associated professor at the Dalian University of Technology in 2012 and 2018. Her research interests include coal and biomass pyrolysis; preparation of catalytic marital (including carbon based and non-carbon based solid waste) and the application of sorbent on trace elements removal in conventional air pollution devices in coal combustion power plant.</p>
