

Brief CV

Name	Ying-Ya Liu/刘颖雅	Gender	Female	
Title (Pro./Dr.)	Associate Prof./Dr.	Country	China	
Phone Number		University Email		
University/Department	Dalian University of Technology/School of Chemical Engineering			
Personal Web Sites				
Research Area	Synthesis and applications of metal-organic frameworks, reaction chemistry for energy conversion.			
<p>Brief introduction of your research experience:</p> <p>Ying-Ya Liu received her PhD from Dalian Institute of Chemical Physics, Chinese Academy of Sciences, China in 2008. Since then, she has been a postdoctoral researcher in Inorganic Chemistry II, Ulm University, under the supervision of Prof. Dirk Volkmer. From 2010, she worked as postdoc. at COMOC in Ghent University under the supervision of Prof. Pascal Van Der Voort, In October 2011, she worked as assistant professor in Ghent University within the dept. of inorganic and physical chemistry. In October 2013, she joined the faculty at Dalian University of Technology (DUT), Dalian, China, where she is currently an associate professor in School of Chemical Engineering. Her current research interests include synthesis and applications of metal-organic frameworks and reaction chemistry for energy conversion. She has over 40 peer-reviewed publications, with over 800 citations.</p>
